

## Belt Conveyor

Horizontal Belt Conveyor

Bevel Belt Conveyor

Skirt Belt Conveyor

Enclosed Belt Conveyor

### TGSU Series U-shaped Chain Conveyor

1. Conveyor body: 4mm carbon steel.
2. Cover plate: 2mm carbon steel, 40mm high strength chain, ultra high molecular weight polyethylene scraper, jam alarm and stall alarm.
3. Self-cleaning type used for horizontally conveying powder and granular materials.
4. Low noise, little material residue, long service time.

### TGSS Series Buried Scraper Conveyor

1. Reasonable structure, diversity in forms, and variety structural according to material transported.
2. Scrapers finely made of industrial plastic with excellent wear resistant performance.

### TWLL Series Screw Conveyor

1. Inside the U-shaped trough, flights with varied or constant diameter and varied pitch are fitted.
2. Blade made by 4mm steel UCF shaft end.
3. Equipped with a stock sealing device added at the discharger end.

### TLSS Series Screw Feeder

1. Seamless steel pipe for main shaft , solid shaft cylinder 3mm steel for convey shaft.
2. Blade made by 4mm steel UCF shaft end.
3. Equipped with a stock sealing device added at the discharger end.

### SWLY Series Impeller Feeder

1. The feeding speed can be adjusted.
2. Include the plat magnet and automatic self-cleaning device.
3. The frequency of the motor is changeable by transducer.
4. The transducer is imported from Japan with Toshiba or Mitsubishi brand etc.
