

Silo Project

Project for grain storage

- A. 12000T Silo for soya 2005
- B. 200000T Silo for corn 2007
- C. 60000T Silo for wheat 2008
- D. 25000T Silo for rapeseed 2009
- E. 12000T Silo for rice 2010
- F. 15000T Silo for corn 2010
- G. 32000T Silo for soya 2010
- H. 8000T Silo for ric 2011
- I. 40000T Silo for corn 2012
- J. 10000T Silo for wheat 2012

A.12000T Silo for soya in 2005

B.200000T Silo for corn in 2007

C.60000T Silo for wheat in 2008

D.25000T Silo for rapeseed in 2009

E.12000T Silo for rice in 2010

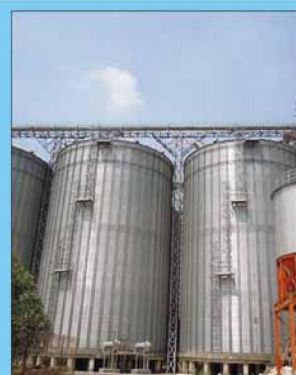

F.15000T Silo for corn in 2010

G.32000T Silo for soya in 2010

H. 8000T Silo for rice in 2011

I. 40000T Silo for corn in 2012

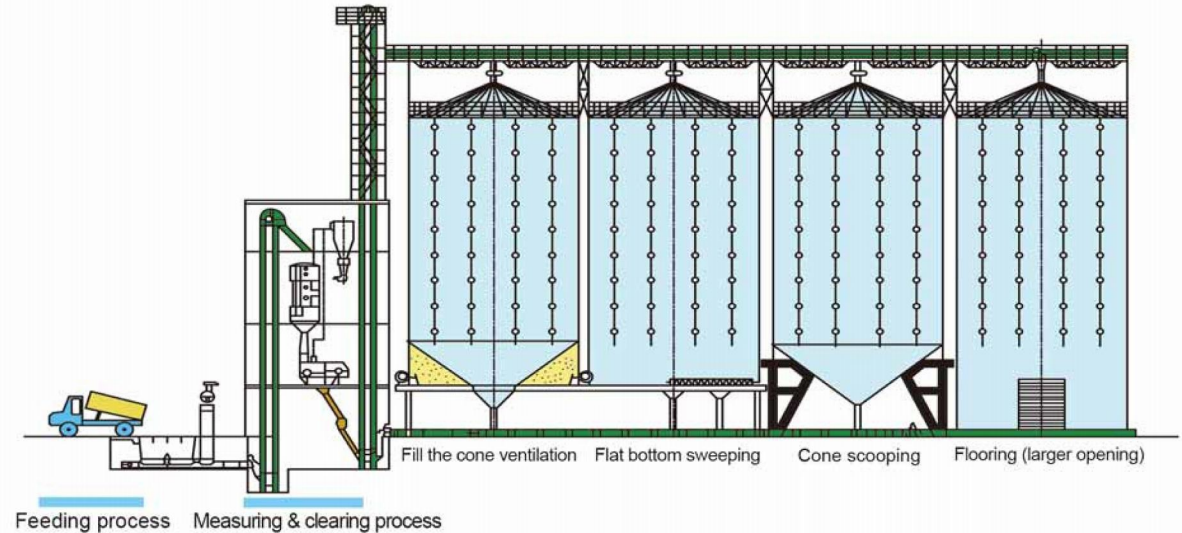

J.10000T Silo for wheat in 2012

Production Process

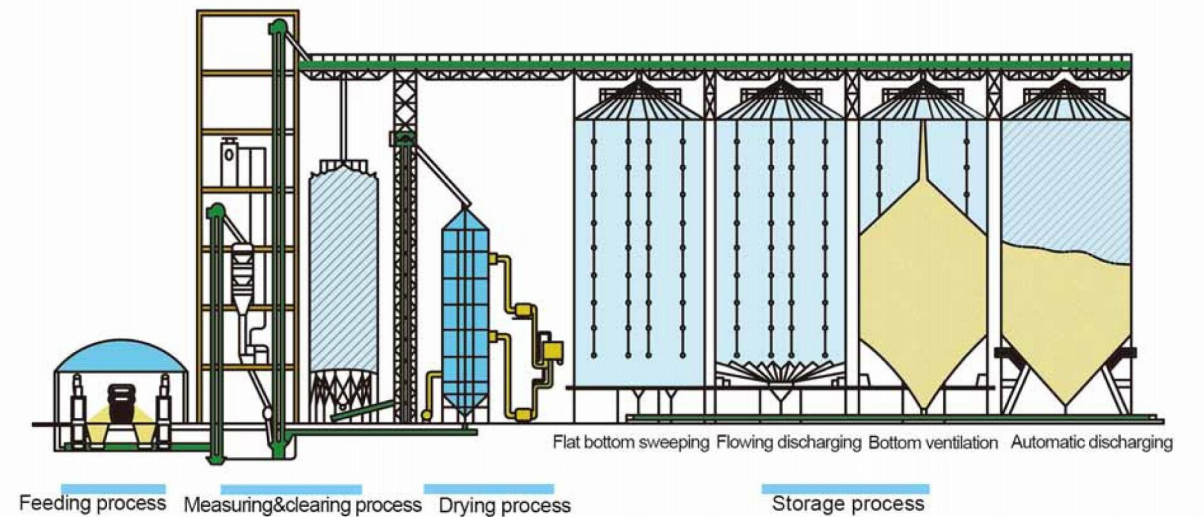

Yongli is a state-level high-tech enterprises, and our every step development is closely follow the world's advance technical trend,. We has developed a series of high-tech excellent products in elevateing ,conveying, dust, drying equipment to achieve the advanced and reliable system for all instore and outstore material which based on powerful technology and economic to make the storage of materials more scientific, reasonable, and ensure the storage quality effectively.
